EDITION SIX
INTRODUCTION

the**bradley**collection

EDITION SIX

It is over 25 years since Priscilla Bradley first had the vision of elevating curtain hardware from the mundane to the status of high-end décor.

The Bradley Collection was born as a brand led by design and with a clear sense of purpose.

This dream of a perfect aesthetic has run in parallel with technical engineering excellence and an absolute commitment to quality, lending the brand rational as well as emotional appeal.

For more than a quarter of a century, The Bradley Collection has pursued its mission to create the world's finest curtain poles.

WELCOME

We are proud to present Edition Six of our "little black book", showcasing our collections & services for 2018/19.

There is much that is new this year with innovations in product design, finishing and bending technology.

Here are a few highlights...

Priscilla Bradley

FRESH & NEW

We love these new shapes; abstract, geometric but somehow easy to live with. We hope you love them just as much as we do...

THERE IS NO PLANET B

Our products are made from steel & aluminium, the world's most recycled materials but now we are changing our packaging to virtually eliminate plastic.

Our new card & paper packaging is easier to open, still gives great protection and is 100% recyclable.

COLOUR IS IN

Our extensive colour and finish palette appears to have hit the spot over the last year and it is rewarding to see so much colour going through our workshop.

We have therefore decided to go for continuity in the latest edition, with only minor improvements and enhancements to our finish offer.

Look out in particular for Flint being added to the finish line-up in the Steel Collection.

BEST IN THE WORLD AT BENDING CURTAIN POLES

We aim to create the world's finest curtain poles, so we need unrivalled technical skills in bending poles. There's no substitute for experience but even our experts can benefit from improved tools for the job. This year sees almost £50k investment in metal bending machinery to give in-house precision bending capabilities in all our metal poles. We hope you will notice the difference in precision and speed.

INSPIRED BY YOU

There is no substitute for beautiful photography if you wish to really appreciate our current collections.

This edition of our 'little black book' goes big on inspiration and we are delighted this year to be featuring so much of our clients' work.

This inspired design by Arior Design features a clever fusion of Steel Collection pole with Elysian templar finials.
