SPECIFICATION GUIDE

SPECIFICATION GUIDE

This specification guide was designed to outline the main considerations that need to be made when quoting or ordering a system.

Please use this along side with the ⚡ | Electric Technical Guide's. There is a guide for Silent Gliss • Somfy • Lutron system options which deal with specific details of those systems.

If any questions arise please call your local sales representative or contact The Bradley Collection directly.

Electrical installations must be carried out by qualified professionals. In line with the relevant wiring diagrams and conform to local regulations.

Poles are manufactured to suit individual requirements. When calculating the length of your pole, remember to allow tolerance beyond the width of the frame for the curtains to draw back to the edge of the window.

Maximum coverpole pole length in one piece 2.9m (114").
 Poles exceeding the recommended maximum distance between brackets, will be cut into equal parts unless otherwise specified. Pole joiners will be supplied. Joining brackets should be placed at every join.

Available pole diameter's - Ø38mm (1 1/2") • 50mm (2")
 The overall pole cost is rounded up in 300mm (1ft) increments.

ELECTRIC CURTAIN POLES

Eclipse consists of a decorative coverpole and finial concealing a functional track system, with the assembly clamped together by clever bracket design.

Coverpoles over 2.9m (9'6") in length will be supplied in multiple sections, tracks over 2.9m (9'6") will be supplied in multiple sections Z folded and pre-assembled with drive belt and gliders/rollers ready for re-connecting and installing.

1 SELECT COVERPOLE

Available cover pole diameter's - Ø38mm (1 1/2") • 50mm (2")

2 SELECT TRACK TYPE & MOTOR

Tracks are fitted into the coverpoles.

Specify your track type from a choice from the leading motorised systems. This provides power and control options ranging from standalone battery powered systems to fully integrated home automation solutions.

SilentGliss

somfy®

LUTRON

For double configurations a second track can be specified, Either with or without a coverpole
All tracks can be specified as Motorised or Hand Drawn

CONFIGURATION

A looped driving belt runs around the motor and along the pole. This is attached to the pilot header which in turn is attached to the lead roller. The motor operates in both directions, thereby opening and closing curtains.

SINGLE STACK

On single stack systems the motor is always positioned on the stacking side, allowing the motor to be hidden behind the curtain.

Double Stack

Double stack curtains can have the motor positioned at either end of the pole.

MOTOR POSITIONING

Mains powered motor's needs to be positioned on same side of the window as the power supply.

Wiring diagrams are available on request

Motorised systems are unsuitable for use outdoors or in damp environments such as shower rooms and bathrooms.

JOINING POLES

Where ever there is a join in the systems, this must always be supported by a joining bracket. Two clamps sit on top of the bracket to support the coverpole.

A separate joiner sits under the bracket and slides into the top channel of the track. To keep the two parts securely together

BESPOKE BAYS

Bradley's bespoke service allows poles to be specifically made for unique bay windows and complex long span installations. Poles can be shaped to create a system that follows contours

BRADLEY PROJECTS

Bradley Projects is an innovative digital tool kit to help with project planning, consisting of a Smartphone Survey App and an online Web Portal.

www.bradleycollection.com/projects/

Survey Tool

Available as a smartphone app for iOS or Android, Bradley Projects Survey Tool lets you photograph and dimension all window types and incorporates Bradley's clever check technology for bays and curves. Unlimited measurements may be saved locally to your device, shared to your colleagues or uploaded to your online account.

Mid Joining Bracket

Eclipse can be customised to suit virtually any window. For simple projection changes between the Minimums and Maximums listed below brackets are charged at double their standard costs. For all other customisations an additional custom fee is applied per drawing

Custom Projection

Specify the exact projection needed.

Custom Fixing Plate

Relevant where space is restricted or weight is a concern.

Uplift

Helps negotiate cornice and similar architectural features.

Dropdown Ceiling

Specify exact projection required from ceiling.

Angled Brackets

The solution for tight and awkward locations.

Minimum & Maximum Bracket Projections

Dimensions outside of these stated min/max projections may still possible but will generate a design charge per drawing. See pricelist for details
