THE **BRADLEY**
COLLECTION

SPECIFICATION GUIDE

SPECIFICATION GUIDE

This specification guide was designed to outline the main considerations that need to be made when quoting or ordering a system.

Please use this along side with the ⚡ | Electric Technical Guide's. There is a guide for Silent Gliss • Somfy • Lutron system options which deal with specific details of those systems.

If any questions arise please call your local sales representative or contact The Bradley Collection directly.

Electrical installations must be carried out by qualified professionals. In line with the relevant wiring diagrams and conform to local regulations.

Facia Poles & Tracks Page 30-36

Poles are manufactured to suit individual requirements. When calculating the length of your pole, remember to allow tolerance beyond the width of the frame for the curtains to draw back to the edge of the window.

Maximum fascia pole length in one piece 2.9m (114").

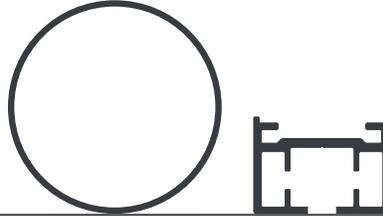

Poles exceeding the recommended maximum distance between brackets, will be cut into equal parts unless otherwise specified. Pole joiners will be supplied. Joining brackets should be placed at every join.

Available pole diameter's - 50mm (2")

The overall pole cost is rounded up in 300mm (1ft) increments.

SILENT GLISS® 5600

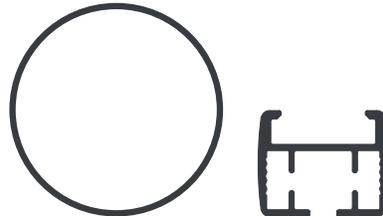

ø50mm (2")

Glider/Roller Type	Maximum System Length - Single Stack →	Maximum System Length - Pair Stack →←	Maximum Section Length	Recommended maximum distance between brackets
Glider/Wave - Glider	2900mm (9'6")	6000mm (20')	2900mm (9'6")	1500mm (5')
Roller/Wave - Roller	15000mm (49')*	15000mm (49')*	2900mm (9'6")	1500mm (5')

SOMFY® GLYDEA, IRISMO & MOVELITE

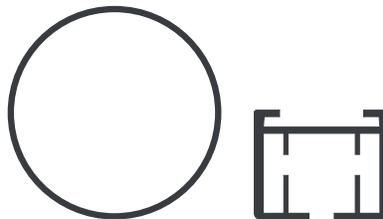

ø50mm (2")

Motor Type	Maximum System Length - Single Stack →	Maximum System Length - Pair Stack →←	Maximum Section Length	Recommended maximum distance between brackets
Glydea Ultra 60e	12000mm (39')	12000mm (39')	2900mm (9'6")	1500mm (5')
Iriso 45WF	10000mm (32.5')	10000mm (32.5')	2900mm (9'6")	1500mm (5')
Movelite 35	10000mm (32.5')	10000mm (32.5')	2900mm (9'6")	1500mm (5')

LUTRON® SIVOIA

ø50mm (2")

Glider/Roller Type	Maximum System Length - Single Stack →	Maximum System Length - Pair Stack →←	Maximum Section Length	Recommended maximum distance between brackets
Roller/Ripplefold - roller	9000mm (29.5')	9000mm (29.5')	2900mm (9'6")	1500mm (5')

HAND DRAWN

For windows or double treatments where motorisation is not required, hand drawn option are available.

ELECTRIC CURTAIN POLES

Curve consists of a decorative fascia pole and finial concealing a functional track system,

Each pole has equally spaced metal tabs welded to the back edge of the pole. Both the track and brackets attach to this tab.

Facia poles over 2.9m (9'6") in length will be supplied in multiple sections, tracks over 2.9m (9'6") will be supplied in multiple sections Z folded and pre-assembled with drive belt and gliders/rollers ready for re-connecting and installing.

⚠ A drawing will be provided of each pole, showing tab locations. Tabs are factory welded and are not adjustable on site. It is critical that you check that these tabs are in positions which you can fit brackets.

1 FACIA POLE

Available fascia pole diameter - Ø50mm (2")

2 SELECT TRACK TYPE & MOTOR

Tracks are fitted behind the fascia pole.

Specify your track type from a choice from the leading motorised systems. This provides power and control options ranging from standalone battery powered systems to fully integrated home automation solutions.

All tracks can be specified as Motorised or Hand Drawn

CONFIGURATION

A looped driving belt runs around the motor and along the pole. This is attached to the pilot header which in turn is attached to the lead roller. The motor operates in both directions, thereby opening and closing curtains.

SINGLE STACK

On single stack systems the motor is always positioned on the stacking side, allowing the motor to be hidden behind the curtain.

DOUBLE STACK

Double stack curtains can have the motor positioned at either end of the pole.

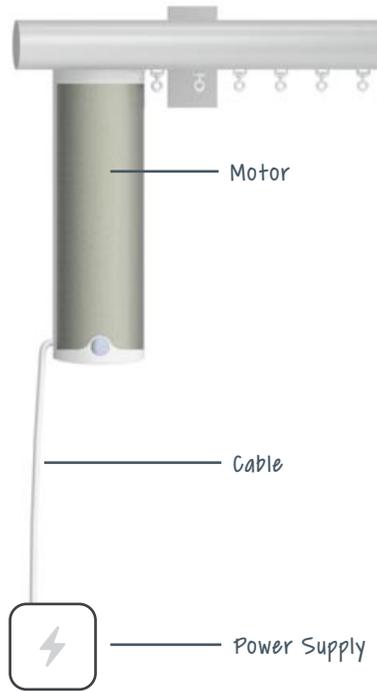

MOTOR POSITIONING

Mains powered motor's needs to be positioned on same side of the window as the power supply.

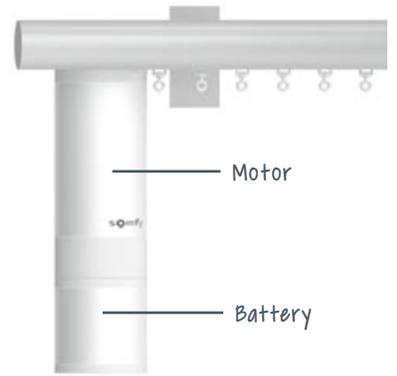

Wiring diagrams are available on request

Motorised systems are unsuitable for use outdoors or in damp environments such as shower rooms and bathrooms.

⚡ MAINS POWERED SYSTEMS

🔋 BATTERY POWERED SYSTEMS SOMFY® MOVELITE & IRISMO ONLY

LEFT HAND MOTOR

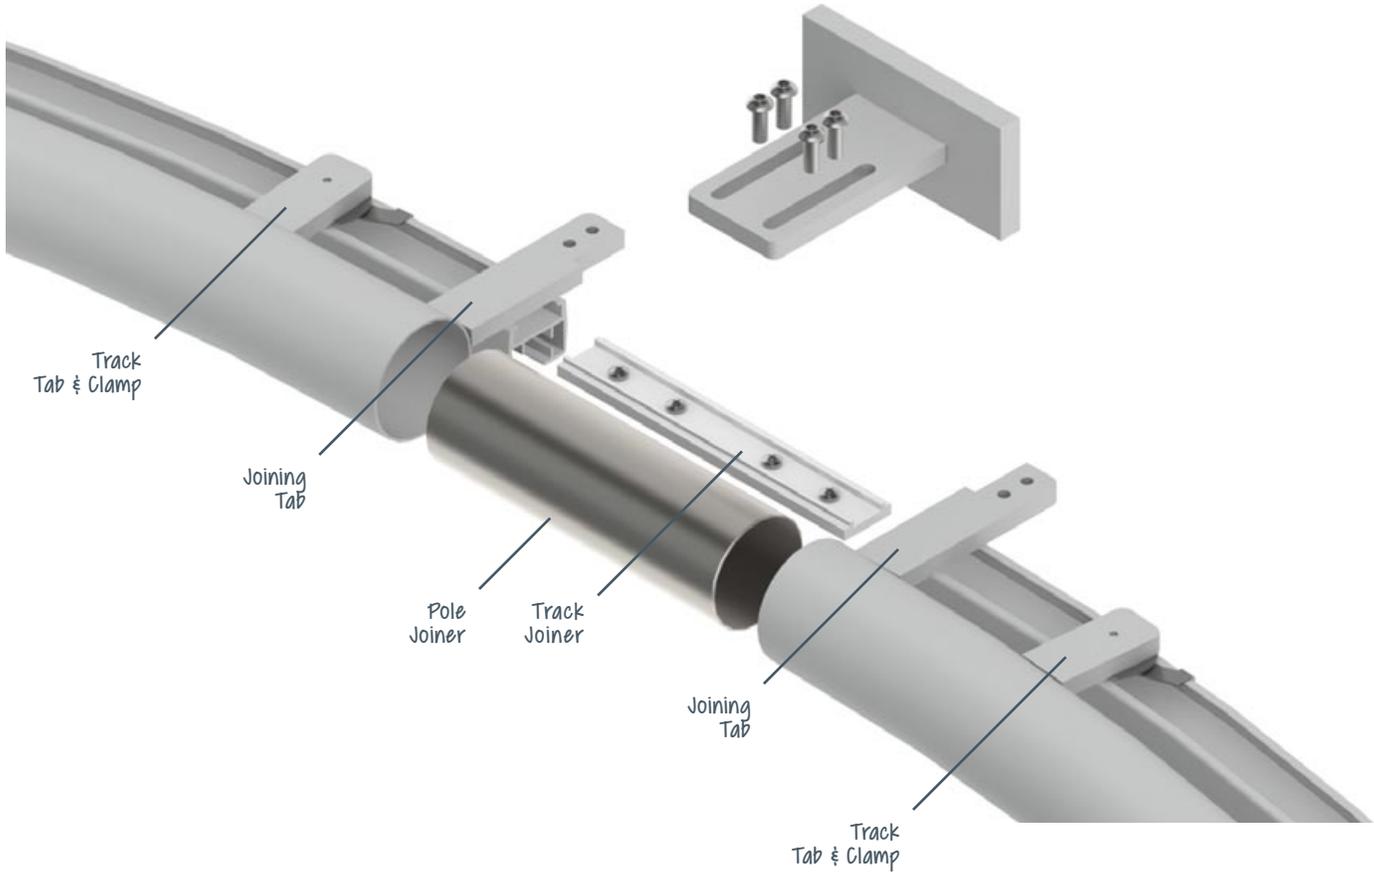

RIGHT HAND MOTOR

JOINING POLES

Where ever there is a join in the systems, this must always be supported by a joining bracket. Two clamps sit on top of the bracket to support the fascia pole.

A separate joiner sits under the bracket and slides into the top channel of the track. To keep the two parts securely together

BESPOKE BAYS

Bradley's bespoke service allows poles to be specifically made for unique bay windows and complex long span installations. Poles can be shaped to create a system that follows contours

⚠ Return bends are not available

Continuous Curve

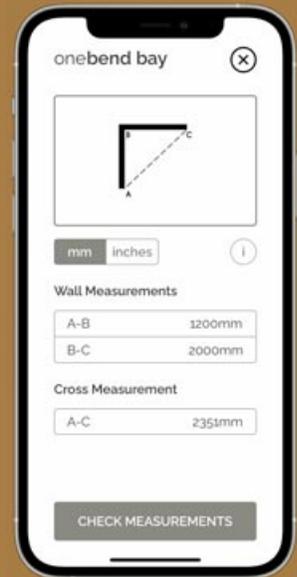

BRADLEY PROJECTS

Bradley Projects is an innovative digital tool kit to help with project planning, consisting of a Smartphone Survey App and an online Web Portal.

www.bradleycollection.com/projects/

Survey Tool

Available as a smartphone app for iOS or Android, Bradley Projects Survey Tool lets you photograph and dimension all window types and incorporates Bradley's clever check technology for bays and curves. Unlimited measurements may be saved locally to your device, shared to your colleagues or uploaded to your online account.

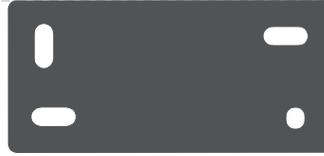

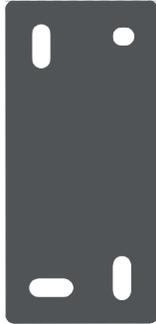

The information below shows the relationship between the bracket backplate. this will enable easy alignments during instalation.

Single & Double Brackets

Top of brackets

Side Bracket

Mid Bracket

Curve can be customised to suit virtually any window. For simple projection changes between the Minimums and Maximums listed below brackets are charged at double their standard costs. For all other customisations an additional custom fee is applied per drawing

Custom Projection

Specify the exact projection needed.

Custom Fixing Plate

Relevant where space is restricted or weight is a concern.

Uplift

Helps negotiate cornice and similar architectural features.

Angled Brackets

The solution for tight and awkward locations.

Minimum & Maximum Bracket Projections

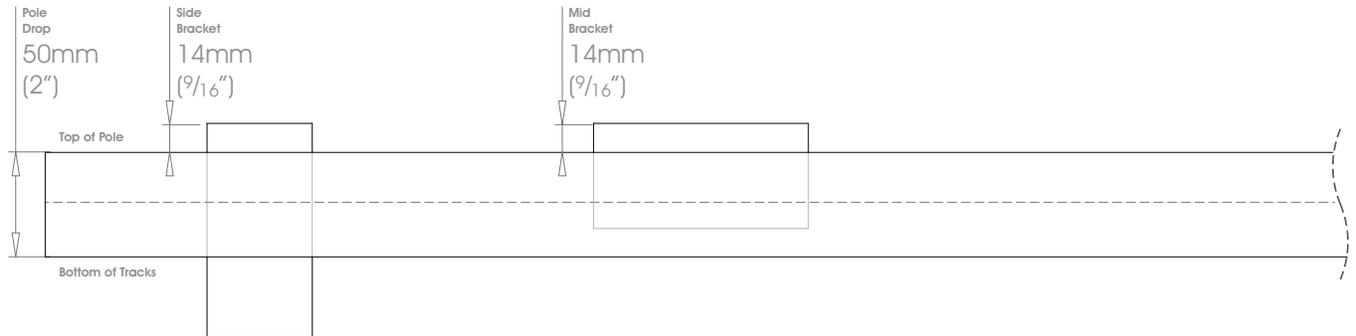

Brackets have adjustability built in of 50mm (2"), to allow for variance in curved walls. Our default projection is 100mm (4")

Dimensions outside of these stated min/max projections may still be possible but will generate a design charge per drawing. See pricelist for details

Diameter	Type	Standard Projection	Minimum Projection	Maximum Projection
∅50mm (2")	Side	100mm (4")	84mm (3 ⁵ / ₁₆ "	200mm (8")
∅50mm (2")	Mid	100mm (4")	84mm (3 ⁵ / ₁₆ "	200mm (8")

The information below shows the relationship between the fascia pole, brackets and gliders/rollers. This will enable the correlation between pole heights and curtain drops to be easily calculated.

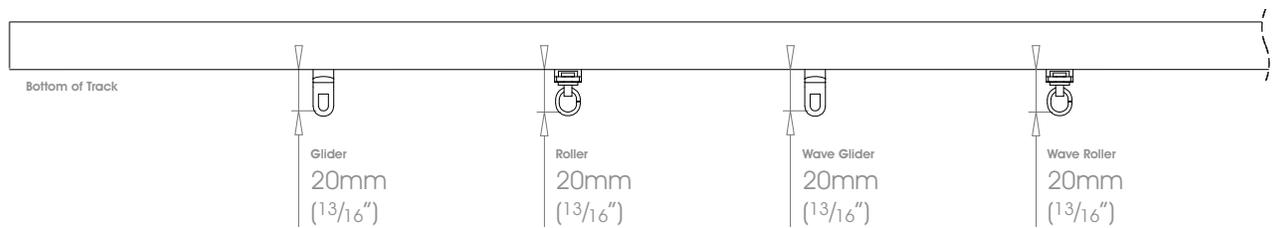

SINGLE SYSTEM - 50mm (2") Facia Pole

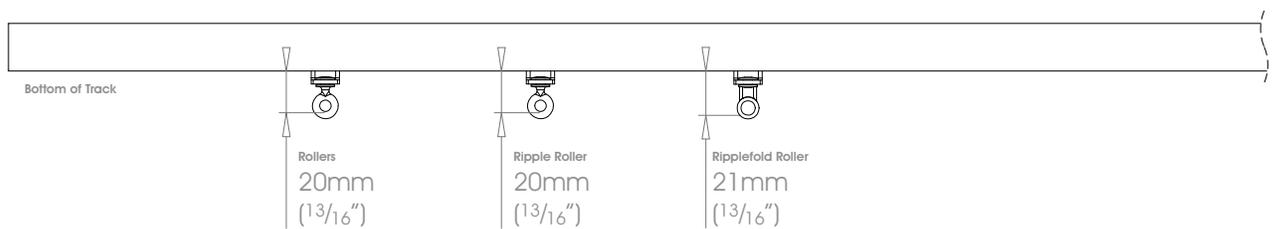

GLIDER & ROLLER DROPS

Add the following drops for your selected system and glider/roller choice.

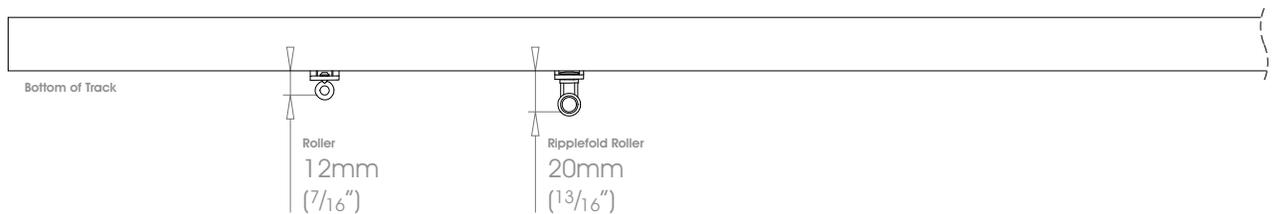

SILENT GLISS

SOMFY

LUTRON

Metal poles and components may all be finished in this entire palette of subtle colour coats in matte, satin or gloss finishes and metallic coats in satin or gloss.

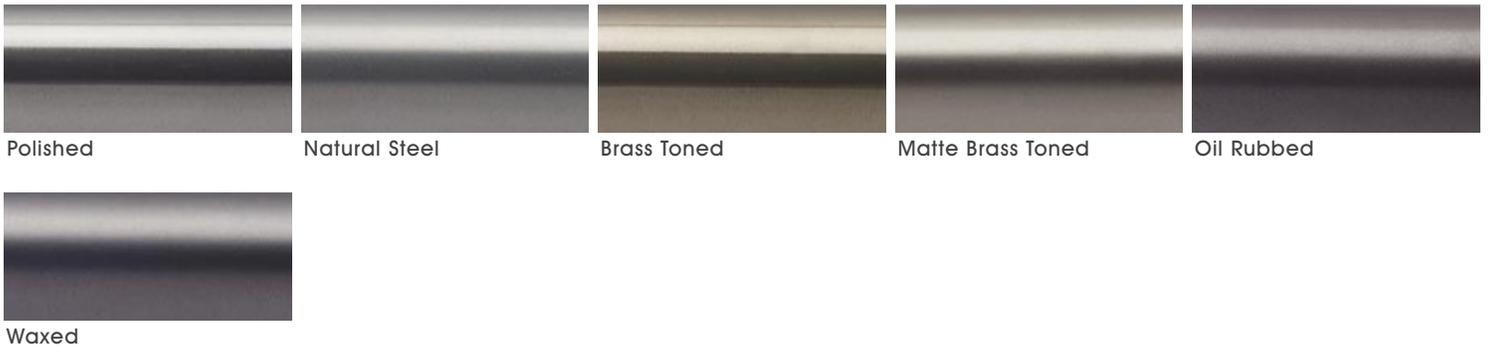

COAT OPTIONS

A brushed stainless steel base gives an edgy feel, with specially developed tints providing a change of mood to suit the needs of the project.

The beauty of the mild steel base shines through with these special translucent finishes.

FLUID METAL™

Leading edge technology allows authentic metal coats to be applied to any substrate, which can then be worked and aged for a truly luxurious result.

⊕ A finishing charge will apply ⊖ Longer lead-times will apply ⊕ Fluid Metal finishes are supplied unlacquered and will tarnish over time, a clear lacquer may be applied on request as a custom finish
 ⬇️ Fluid Metal finishes are hand produced, finish may vary.

CUSTOM FINISHES

Can be specified from RAL K7 finish chart, subject to a per colour upcharge (up to five poles)

COLOUR MATCHING

A colour matching service is offered, to match your scheme of fittings perfectly . See pricelist for further details

Track will be finished in a complementary colour to match the cover pole as per the table below.
