CEDIA MEMBER Specialised fixings for mounting brackets will be required in certain situations and are not provided as standard. Steel items are not recommended for damp conditions such as shower rooms.

Crystal finials should not be positioned in direct sunlight, and are not suitable for use in conservatories.

The Bradley Collection reserves the right to modify design and materials without prior notice as part of a process of continual product improvement. Due to printing limitations, colours in this brochure may not be accurate.

Products are protected by Design Rights, under provisions of Copyright, Designs & Patents Act 1988.

4 POLE

ePole is a plug-and-play curtain pole with a quiet, powerful motor and sleek remote. A discreet USB bridge enables smartphone or voice operation. Simple to install, pairs perfectly with Gliderpole brackets and finials.

Smart design. Truly Plug & Play.

Pictured: ø38mm (1½") ePole • Discus • Antique Brass - Satin

FICPOLE

PLUG & PLAY MOTORS

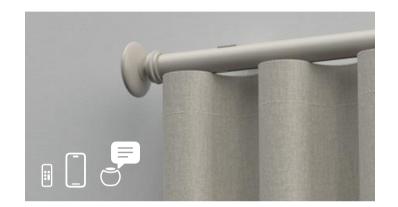

Engineered for ease, the system uses a quiet and powerful motor. The battery motor offers a simple, cable-free install, while the mains option requires a high-level wall socket.

CONTROLLED YOUR WAY

The system can be controlled via hand-held remote control, Smart device App or voice control.

Pairing and app connection is intuitive and straightforward.

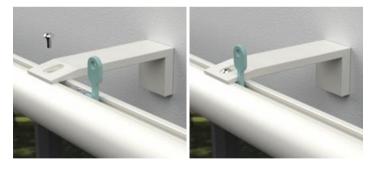

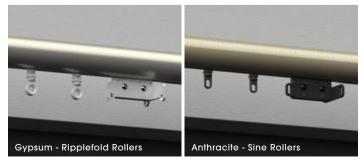

EASIER INSTALLATION

The ePole utilises the brackets from the proven Gliderpole collection and incorporates the clever T-bar guide, which perfectly indexes the tapped hole and grub screw.

Gliders and Rollers are available in either Gypsum or Anthracite colours.

DISCREET DESIGN

The 38mm (11/2") pole is paired with an embedded cartridge and a polymer motor adaptor, allowing single or twin drives to sit discreetly behind the curtain.

BRACKET SUITE

The ePole is compatible with the entire Gliderpole bracket suite, offering wall and ceiling fix, double brackets for layered shading and adjustable brackets for tricky installs.

BENT OR CURVED TO SHAPE

ePole has been developed to fit any window shape. Precision bending and adjustable brackets ensure a perfect fit.

MODERN HEADINGS

Modern sinuous heading styles can be created, utilising either hook and tape or snap-tape components.

FINISHES

A full range of colours and finishes are available with a choice of coat options throughout.

COAT OPTIONS

POLES

Poles are cut, bent and curved to suit individual requirements. When calculating the length of your pole, remember to allow tolerance beyond the width of the frame for the curtains to stack back to the edge of the window.

Poles exceeding the maximum length will be cut into equal parts unless otherwise specified. A pole joiner will be supplied.

Size	Maximum distance between brackets	Maximum length in one piece	Standard Bend radius
ø38mm (1½")	1000mm (39")	4000mm (157")⊖	R 400mm (16")

⊕ Supplied in sections - Section lengths over 3.0m (118") will incur a handling charge For full technical information, sizes and weights please download the specification guide - www.bradleycollection.com/downloads/
