**THE BRADLEY
COLLECTION**

Poles are cut, bent and curved to suit individual requirements. When calculating the length of your pole, remember to allow tolerance beyond the width of the frame for the curtains to draw back to the edge of the window.

Poles exceeding the recommended maximum distance between brackets, will be cut into equal parts unless otherwise specified.

Pole joiners will be supplied.

Pole diameter's - Ø30mm (1³/₁₆") • 38mm (1¹/₂") • 50mm (2")

The overall pole cost is rounded up in 300mm (1ft) increments.

Size	Recommended curtain type for pole diameter	Maximum distance between brackets	Maximum length in one piece	Standard Bend radius
Ø30mm (1 ³ / ₁₆ ")	Medium weight, lined & interlined curtains	2100mm (83")	4000mm (157") ⊕	⊖255mm (10")
Ø38mm (1 ¹ / ₂ ")	Medium to heavy weight, lined & interlined curtains	2200mm (87")	4000mm (157") ⊕	⊖255mm (10")
Ø50mm (2")	Heavy weight interlined curtains	2400mm (96")	4000mm (157") ⊕	⊖255mm (10")

⊕ Section lengths over 2.4m (94") will incur a handling charge

PROVIDING POLE LENGTHS

Pole lengths can be specified in two ways.

OPTION A is our preferred method. This covers Pole length only. **OPTION B** combines pole and finial lengths.

*Section lengths over 2.4m (94") will incur a handling charge

JOINING POLES

Joins must always be supported by a bracket.

BESPOKE BAYS

Bradley's bespoke service allows poles to be specifically made for unique bay windows and complex long span installations. Poles can be shaped to create a system that follows contours. Passing rings have been designed to traverse over brackets and around bends. Using a double pole system in a bay window can create an elegant as well as practical treatment.

BRADLEY BAY CHECKER +

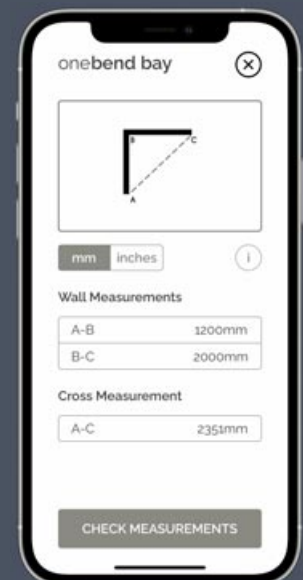

Bay Checker + is part of our Digital Toolbox, allowing you to check your measurement for bays and curves whilst onsite, as well as storing straight window dimensions for your projects.

Unlimited measurements may be saved locally to your device or shared to your colleagues.

Available as a free download for iOS or Android.

The table below is a guide for the minimum wall size required to fit a bend into the space.

Standard bend radius shown is the minimum radius achievable.

Projection shown for return bends, is the minimum requirement to clear the corner at point A.

Note: changes in angles and projections will alter the minimum wall sizes required

The information below shows the relationship between the bracket backplate. this will enable easy alignments during installation.

Passing brackets and passing rings allow drapes to traverse around bays and multi-pole systems. passing is available on single pole systems. Passing will only work if the system is correctly installed and the drapes are properly made and attached to the rings.

PASSING GUIDELINES

1. Do make sure the top of the drapery ends underneath the main ring and does not touch or go above the bottom of the ring.
2. Always have the drapery hook perpendicular to the ringlet. Ringlets should not be sewn into a pinch pleat.
3. Be sure to have very little to no puddle on drapery, especially if the fabric is stiff. A stiff header can also cause the rings to not move freely.
4. If using lightweight or sheer fabric, the fabric needs to be weighted enough to pull the rings into the correct passing position.
5. Passing rings are not recommended with draw rods.

Elysian can be customised to suit virtually any window. For simple projection changes between the Minimums and Maximums listed below brackets are charged at double their standard cost. For all other customisations an additional up-charge and custom fee is applied per drawing

Custom Projection

Specify the exact projection needed.

Custom Fixing Plate

Relevant where space is restricted or weight is a concern.

Uplift

Helps negotiate cornice and similar architectural features.

Angled Brackets

The solution for tight and awkward locations.

MINIMUM & MAXIMUM BRACKET PROJECTIONS

Dimensions outside of these stated min/max projections may still be possible but will generate a design charge per drawing. See Price List for details
